DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stacey J. Longanecker on March 5, 2007.

The application has been amended as follows:

In the Claims:

In claim 10, line 3 of the second paragraph, the language "at least one secondary dam" has been replaced with "at least one separate secondary dam".

In claim 16, line 1 of the last paragraph, the language "at least one secondary dam" has been replaced with "at least one separate secondary dam"; and line 2 of the last paragraph, the language "at least one secondary dam" has been replaced with "at least one separate secondary dam"

REASONS FOR ALLOWANCE

The primary reason for the allowance of claims 1-20 is the inclusion of the limitation of a housing comprising a receiving part formed at one side of the bottom thereof to receive and fix the print head unit therein, the receiving part having an ink feed hole including a dam on its perimeter to support the head chip, and a separate secondary dam of the same height as the dam which also supports the head chip. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.
